TO WHOM IT MAY CONCERN:

Re: John Pisarski
And Re: C.P.A. Investigations

The above noted has been associated with this firm for some time. He has proven himself to be one of the very best investigators with which I ever worked.

He is an able worker, a hard worker, and a willing worker. He has a keen perception about people, their motives and probable conduct. With that insight he has shown himself able to take notes and information from counsel and the plaintiff and to interview witnesses and make interpretation and deductions to find other prospective witnesses.

He reports frequently from the field. He can and does make practical suggestions which are usually sound and useful. He has available to him a variety of sources of information not only from public records but from commercial and other outlets. He has facility not only for high-quality photography but also modestly-priced, prompt and accurate scale plans of intersections etc.

While he is confident and capable in the most difficult or roughest of circumstances his manner is polite, courteous and effective in professional or more formal circumstances. He works very well under pressure and is dependable in meeting deadlines. He is keen to learn and is a fast learner. He often attends mediation, meetings and trials to see how his work is put into effect and with a view to improvement.

He is a valued, loyal, intelligent, mature associate with whom it is a pleasure to work. I look forward to continuing to work with him and would highly recommend his services to all of my colleagues so long as it doesn't reduce his availability to me.

Yours truly,

Thomas O. Griffiths
